§ 1 Object, Purpose and Basis of Funding

(1) This regulation shall regulate the implementation of the act on the creation of a national scholarship programme (Scholarship Programme Act - StipG) of 21st July 2010 (Federal Law Gazette (BGBl.) I Pg. 957), as amended by Article 2 of the law of 23rd December 2014 (BGBl. I, Pg. 2475) and the directive on the execution of the Scholarship Programme Act (Scholarship Programme Directive - StipV) of 20th December 2010 (BGBl. I) as amended by Article 2 of the Directive of 29th November 2011 (BGBl. I Pg. 2450) at the Hochschule für Technik und Wirtschaft Dresden.

(2) The HTW Dresden awards scholarships upon application and following a selection procedure as part of the National Scholarship Programme to fund highly talented university applicants and students who can be expected to achieve or have already achieved outstanding performance in their studies and profession.

§ 2 Eligible Students and University Applicants

(1) The scholarship programme is intended for:
   1. university applicants who wish to enrol for the first subject-specific semester at the HTW Dresden and who fulfil the admission requirements for studies, as well as for
   2. students in diploma programmes or Bachelor’s and Master’s degree programmes who are enrolled at the HTW Dresden.

(2) The scholarship programme is not intended for students who already receive a material grant dependent on talent and performance pursuant to § 1 Para. 3 of the StipG or § 4 Para. 1 Sentence 1 of the StipG, unless it is less than a monthly average of EUR 30 for each semester for which the grant was approved.

§ 3 Announcement

(1) The scholarships to be awarded for the following academic year will generally be announced annually at the end of the summer semester of the previous year by the Prorector for Teaching and Learning of the HTW Dresden. The announcement will be made online and put up in faculties as well as at other places for announcement at the university.

(2) The announcement will mention the expected number of scholarships and, if applicable, the earmarking of a certain amount of the scholarships. The maximum number of scholarships to be awarded depends on the funds provided by the federal government in a phased process and on the additional private funds to be obtained by the university.

(3) The announcement contains the following details:
   - application form and place of submission,
   - documents to be provided by the applicant,
   - application deadline and the course of the selection procedure, and
   - amount and duration of the scholarships.

§ 4 Application Procedure

(1) Scholarship applications are to be submitted by the end of the application deadline (cut-off period) mentioned in the announcement.

(2) They are to be sent to the Chairperson of the Selection Committee via the online form specified in the announcement.

(3) The documents to be submitted are specified in the announcement. These are to be submitted in German. If they are not available in German, then an officially certified German or English translation should be enclosed.

Important: This is a translation for information purposes. Only the German wording of the regulation is legally binding.
§ 5 Basis of Allocation

(1) Up to two-thirds of the scholarships can be earmarked. This refers to technical criteria such as assigning the future scholarship holders to specific degree programmes or faculties.

(2) If possible, applicants from all faculties should be considered when awarding a scholarship. Proportional shares, depending on the number of enrolled students per faculty, with the exception of doctoral students, are to be used as a basis for this. The number of earmarked scholarships according to Para. 1 will be counted towards the proportional share of the faculties. If the number of earmarked scholarships exceeds the proportional share for a faculty, the proportional share of scholarships from other faculties will be reduced accordingly.

(3) The faculties will endeavour to raise the additional funds from private sources pursuant to § 3 Para. 2 to the amount of the proportional share corresponding to the number of enrolled students referred to in Paragraph 2.

§ 6 Selection Committee

(1) The rectorate will establish a central Selection Committee to prepare for the award decision. The Prorector for Teaching and Learning will be the Chairperson of the Selection Committee. In agreement with the rectorate, the Prorector for Teaching and Learning can be represented by a representative from among the professors. This representative will be appointed by rectorate decision.

(2) In addition to the Prorector for Teaching and Learning, the Selection Committee will consist of one professor and one student from each faculty, as well as the university's Equal Opportunities Officer. The professors and students of each faculty and their deputies will be appointed by the Faculty Board for one year.

(3) The Selection Committee will have a quorum when more than half of the committee members are present and entitled to vote. It will decide with a simple majority of the votes of those present. In the case of a tied vote, the Chairperson will have the casting vote.

(4) The Selection Committee may invite representatives of private sponsors in an advisory capacity, especially for earmarked scholarships. The Chairperson of the Selection Committee may grant these representatives access to motivation letters and transcripts of the results of individual applicants.

(5) For student members of the committee who have submitted a scholarship application, §§ 20, 21 of the Administrative Procedures Act will apply accordingly. They will not be allowed to participate in the meetings of the Selection Committee and will be replaced by their respective deputies. If these are also excluded, the corresponding seat in the committee will remain vacant.

§ 7 Selection Procedure, Notice of Granting

(1) The Selection Committee will present to the rectorate a recommendation list of students and/or university applicants who ought to receive a scholarship.

(2) Based on the Selection Committee’s recommendations, the rectorate will decide on granting the scholarships.

(3) Information about the granting of scholarships will be made known by a decision of the Prorector for Teaching and Learning.

(4) The notice will be made public once scholarships have been awarded and the scholarship holders have been informed.
§ 8 Selection Criteria

(1) The performance and aptitude of university applicants who wish to enrol for the first subject-specific semester will be decided primarily on the basis of the following criteria:
   a. For university applicants for a diploma programme or Bachelor's degree programme, the average grade of the university entrance qualification;
   b. For university applicants for a Master's degree programme, the duration and final grade of the previous course of study and, if applicable, the ECTS grade.

(2) The performance and aptitude of students enrolled for diploma programmes or Bachelor’s and Master’s degree programmes will be decided upon primarily on the basis of the following criteria:
   a. The average of all grades obtained by the faculty-specific cut-off date, which follows the application deadline and is set by the Prorector for Teaching and Learning. As a rule, the grades of completed modules that are weighted in accordance with ECTS points will be used as the basis for this.
   b. The number of ECTS points obtained up to the application day, taking into account the course of study recommended in the study schedule of the study regulation;
   c. The average grade of the university entrance qualification for students in Bachelor’s degree programmes and diploma programmes up to and including the second subject-specific semester;
   d. Duration and the final grade of the previous study and, if applicable, the ECTS grade for students in Master’s degree programmes up to and including the second semester.

(3) In addition, the following criteria will be particularly taken into account in the overall consideration of the applicant’s potential:
   a. Special achievements, awards and prizes, previous occupation and internships;
   b. Extra-curricular activities such as voluntary work or commitment to social work, work related to higher-education policies, political work or participation in religious societies, groups or associations;
   c. Special personal or family circumstances such as illnesses and disabilities, the care of one's own children, particularly as a single parent, or close relatives in need of care, assistance in the family business, study-related gainful employment, family background or a migrant background.

(4) Double counting of the criteria specified in Paragraphs 2 and 3 will be excluded.

(5) The criteria will be included in the recommendation list pursuant to § 7 Para. 1.

§ 9 Amount and Duration of Scholarship, Withdrawal

(1) The amount of the scholarship will be a total of EUR 300 per month and will be disbursed as a non-repayable grant. In derogation hereof, a higher scholarship may be awarded pursuant to § 5 Para. 1 Sentence 2 of the StipG if the proportion of funds obtained from private sources for a single scholarship is higher than EUR 150.

(2) The scholarship may be granted until the last semester of the standard period of study of a degree programme. Upon substantiated request, the scholarship may be granted beyond the standard period of study pursuant to § 7 Para. 1 of the StipG.

(3) The total funding period will be specified in the notice of granting. The scholarship will be granted for a duration of two semesters.

(4) In the case of subject-specific stays abroad as part of the course of study, the same scholarship amount will still be paid.

(5) The regulations of the StipG will apply to the leave of absence from the course of study and the termination and withdrawal of the scholarship.
§ 10 Obligation to Cooperate

(1) Applicants must fulfill the obligation to cooperate that is required for the selection procedure. They must provide information necessary for verifying eligibility and performance prerequisites and furnish evidence.

(2) Scholarship holders must promptly provide notification of any changes in circumstances that are relevant to the granting of the scholarship.

§ 11 Coming into Effect

The regulation was passed by the rectorate on 6th June 2019 and will come into effect on 11th June 2019. The Regulation on the Awarding of Scholarships as part of the National Scholarship Programme of 30.05.2017 will cease to be in force.

Overview: consideration of further selection criteria

A criterion may be accepted if the relevant facts are asserted at the designated place in the online application system as part of the application process and the required proof is attached (usually as an electronic copy on the applicant portal).

Points are awarded in three categories (a, b, c) pursuant to § 8 Para. 3. A maximum of 10 points are awarded in each category. Five points are awarded for each criterion for which proof has been submitted.

### a) Special achievements, awards and prizes, previous occupation and internships
